

Marc Joefreal A. Guiang

Junior Full Stack Developer

Parañaque City, Philippines | marcjoefreal@gmail.com | +639465914213 | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Junior Full Stack Developer and BSIT student with hands-on experience building full-stack web applications using **React.js, Node.js, Express.js, MongoDB, and Next.js**. Experienced in developing REST APIs, role-based authentication, AI-powered document processing, and responsive interfaces. Seeking an internship or junior developer role to build reliable, user-focused software.

TECHNICAL SKILLS

Frontend: React.js, Next.js (App Router), JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SWR, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Python, Flask, Background Job Scheduling (node-cron)

AI & Automation: Google Gemini API (Multimodal Vision & LLM OCR), Document & Receipt OCR Processing

Databases: MongoDB (Native Driver & Aggregation Pipelines), Mongoose, MySQL

Security: JWT Authentication, Role-Based Access Control (RBAC), bcrypt, Rate Limiting, Input Sanitization

Tools & Libraries: Git, GitHub, Recharts, html2pdf.js, Lucide React

Deployment & Hosting: Vercel, Render

PROJECTS

IsangDiwa — AI-Powered Church Microfinance & Community Ecosystem

Full Stack Developer | *Capstone Project* | 2026 | [Live Demo](#) | [GitHub](#)

- Built an end-to-end community finance platform supporting microloans, savings goals, delinquency tracking, and digital donations.
- Integrated Google Gemini Vision AI for automated KYC verification and receipt/document OCR processing.
- Implemented 4-tier Role-Based Access Control with JWT authentication, bcrypt password hashing, and API rate limiting.
- Developed financial dashboards and automated reporting with interactive analytics and PDF statement generation.
- Designed MongoDB data models for members, transactions, loans, and repayment schedules.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Google Gemini Vision API, Tailwind CSS, JWT, Recharts, html2pdf.js, Vercel, Render

Pahinga — Outdoor Adventure & Expedition Booking Platform

Full Stack Developer | *Personal Project* | 2026 | [Live Demo](#) | [GitHub](#)

- Built a multi-role adventure booking platform for hikers, tour agencies, transit providers, and admins.
- Implemented trip browsing, availability, bookings, ratings, and agency management features.
- Developed transportation and passenger-manifest workflows for tour agencies.
- Created a recommendation system matching hikers to destinations based on fitness level, trail duration, and terrain preference.

Tech Stack: Next.js, React, MongoDB, Mongoose, Tailwind CSS, JWT, Lucide React, Vercel

EDUCATION

Bachelor of Science in Information Technology — Major in Web & Mobile Application

National University MOA | 2023 – 2027 (Expected Graduation)

CERTIFICATIONS & BADGES

Microsoft Learn Technical Badges (2026): Configure Web App Settings, Explore Azure App Service, Design and Implement Network Security, Implement Group Policy Objects (GPO), Create and Manage Active Directory Objects, Explore Performance-Based Database Design.
